Custom Development & Business Solutions

Cross Platform Mobile Applications

Internet Marketing & AdWords

Collaboration & Reporting

E-Commerce

business models must continually evolve to respond to **technology-driven** market changes

to stay competitive, organizations need the ability to update products and **processes rapidly**

Demand for mobile apps is growing **5x** faster than IT departments can deliver

Source: Gartner

Microsoft PowerApps helps power users build and deploy business apps easily
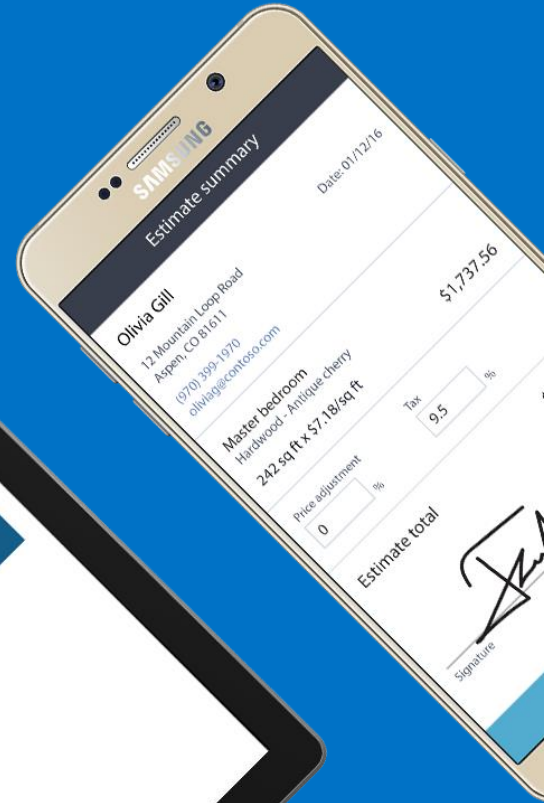

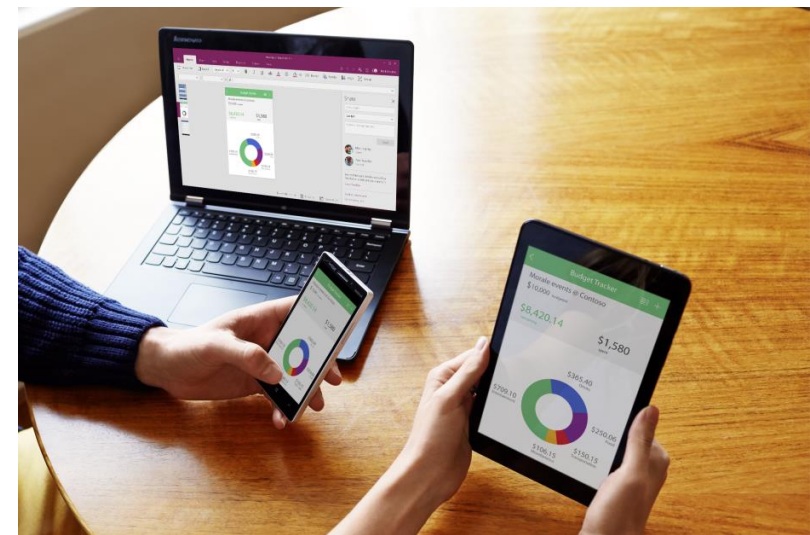

Connect to the systems
you're already using
or
create the data you need

Build useful apps
without writing code

Publish apps instantly
for web and mobile

Craft forms and screens in a visual designer that helps you see exactly what you'll get

Take advantage of device capabilities like cameras, GPS, and pen controls

Build business logic into your apps with an Excel-inspired expression language

Connect multiple existing data sources or create your own data to power your app

ECONOMIC CALLOUTS APP

analyze **11 DATA SOURCES** to determine approach to resolution

GENERATE prescribed action based on real-time data

create **AUDIT TRAIL** on SharePoint Online to record decisions

generate **REPORTS** for managers to compare cost avoidance with net benefit

"Not only have we solved an important business problem, we have delivered the solution at a fraction of the traditional IT project cost – both from an implementation and a TCO perspective. The solution paid for itself in a mere two weeks!"

- Nipa Chakravarti, Vice President of IT at TransAlta.
